Pretty dope game, kind of repetitive gameplay though I felt bored after the 2nd level. Maybe implement some bosses at the end of each level? Standing in the same spot throughout the game kind of sucked cause I have a big play space and love to utilize it and I just wasn't really feeling this game standing in the same spot. (Maybe put some barriers, etc in the game?)

I definitely love the concept but I still think it needs more work. I'll be keeping the game in hopes that the dev's keep updating it :). Enjoyed playing this song, but highly disappointed that it's not the band version that the band version was not included.. one thing they need to fix is that when you buy the dlc you shouldnt have to level up to play but what i seenit seems worth buying. Worms vay be bu oyunu oynamayan yoktur herhalde \u00f6ncelemeden tu\u015flu telefonlarda vard\u0131 bu oyun day\u0131m\u0131n telefonunu al\u0131p sabahlara kadar oynuyordum ne g\u00fcnl\u00fcrdi ama ee tabi \u015fu an o kadar keyfi \u00e7\u0131km\u0131yor oda ayr\u0131 modas\u0131 \u00e7oktan ge\u00e7ti bir ka\u00e7 saat sonra s\u0131k\u0131ca\u011f\u0131ndan eminim ama tabi ki\u015fiden ki\u015fiye de\u011fi\u015fir bu durum tavsiye ederimiyim ederim indirimde zaten para etmiyor. Puan 8 \u2265 10. I have never had so much fun playing with a booger.

Some of the levels were challenging, but nothing really felt unfair. The art style was wonderful to look at, and the music didn't get annoying at any point in the game.

I'll admit it was a little short, but if you enjoy racing against the clock, I strongly suggest Flem.

9/10 Would sneeze again.. Worth Playing-

-I bought it in a Steam bundle!-. Would be great if you could customize the controls!. I was really excited for Plevr to be released and overall, I'm not disappointed.

Pros:

- \* Great interface and easy to use.
- \* Found my library immediately after login.
- \* Re-positioning the viewing angle was a snap and it's extremely easy to change environments.
- \* YAY - Plex for VR!!!!!!

Cons:

- \* OMG please disable the horrible trigger noise that sounds like a gun shot -- first time that happened I nearly jumped out of my f\*cking skin (yes, my volume was set way too loud, LOL)!!!
- \* Resolution needs to be improved -- is there a way to increase the detail \u2265 sampling rate? My movies appear a tad grainy in Plevr. I don't have this problem with Simple VR Player.
- \* Some of my movies stuttered, such as Assassin's Creed. Perhaps with more tweaking and optimization of the code this will improve.
- \* Subtitle support -- how do I enable subtitles??
- \* I'd like to see more choices when selecting library titles -- ie. Genre, Decade, etc. Perhaps you could enable a menu option that would allow us to switch views, i.e. categories, genre, decade, etc?
- \* Needs more environments (glad you are working on this!)

Overall, this is a really terrific first effort and I'm really looking forward to future updates!

OMFG! YES!

Finally!!! They've done something right! I used this pack on ACE before, and I can't explain how MUCH I loved this pack! And for those who want to make GOOD Scifi games, I highly recommend this pack!!

Now all is missing is Dark Heroes pack. If you are looking for a very simple and easy point and click game, this is for you. The game is visually appealing and it's dark at times, but i was really hoping to love this game. I'm a huge point and click puzzler fan, but this game was way too easy to be enjoyable.

I would recommend this game for a "beginner" who wants to see if they like this type of genre, but not for a seasoned puzzler.. Excellent break game, as quick as solitaire but engaging much more of your brain, and deeply satisfying once it all clicks into place. I made a video: <https://www.youtube.com/watch?v=kT7bEJQsVYk&feature=youtu.be>. [Playing the scenario, Surf\u2019s Up, which comes with this DLC was fun and challenging. Well worth the money I have spent.. Nice puzzle game with well-judged progression which gets moderately difficult. Neat little rock,paper & scissors fighter. Can be played together\(2p\) on a keyboard, controls are customizable.](#)

[You've got normal, light and heavy attacks. As well as parry and also dodge which can also be used to fake. This combined with jumping attacks.](#)

[Simplicity comes with not being able to combo this stuff. Then again, most of the time you'll die in 1 hit.](#)

[Artwork and Soundtrack are decent.](#)

[Worth picking up for a night when you have a friend over.. ....Why am I addicted to this game? I shouldn't be addicted to clicker games.... Why do I keep denying this is a clicker game? Yes, it has other aspects that require more thought in some actions that are much different than other clicker games, but.... it IS essentially a clicker game after a while. Still, why is this one so addicting?!](#)

[....It's good. It's free. Try it.](#)
